The U.S. Department of Agriculture (USDA) prohibits discrimination against its customers, employees, and applicants for employment on the bases of race, color, national origin, age, disability, sex, gender identity, religion, reprisal, and where applicable, political beliefs, marital status, familial or parental status, sexual orientation, or all or part of an individual's income is derived from any public assistance program, or protected genetic information in employment or in any program or activity conducted or funded by the Department.

Mesquite ISD Food & Nutrition Services

Dear Parent/Guardian,

You have indicated that your child has a condition requiring diet modification such as food allergy or intolerance, or other modification to diet like sodium restriction or texture modification.

Mesquite ISD is committed to providing a safe environment for your child at school.

This Document is Very Important! Please Read It Carefully!

The following steps are required for the cafeteria to make any changes to your child's meal choices:

1. The Diet Modification Form must be filled out in its entirety by a **physician** in accordance with State and Federal law. Please take the school menu* and this paper to the doctor. The doctor must indicate which foods your child cannot consume and what foods may be substituted in place of that item. Cafeteria staff **may not** substitute or change menu items without written doctor's orders on file. *This is State law.*
 - a. Diet modifications are strictly followed. For example, if the physician states that your child is allergic to dairy, then cafeteria staff cannot serve pizza, cheese, waffles or any other items that contain dairy to your child – even if you allow your child to consume such items at home. If your child *does not* have a **severe** allergy, please consider this before submitting the diet modification form.
 - b. In order to remove an allergy or diet modification, a second Diet Modification Form must be completed by a physician. It must state that the child is no longer allergic or no longer needs diet modification.
 - c. Please note that neither juice nor water can be substituted for milk. *This is Federal law.* Lactose-free or soy milk is available for students whose physician completes a request for (cow) milk substitution.
 - d. If you would like to speak to the Mesquite ISD Dietitian before submitting the diet modification form, please see the contact information below.

*Menus are available on the district website:

<http://www.mesquiteisd.org/departments/food/menus.htm>

2. Once the Diet Modification Form has been completed by a physician, please return the form. The form may be submitted to the MISD Dietician by email or fax (below). If you don't have access to email or fax, please return the form to your child's school nurse.
3. Review the menu with your child so that they understand which choices are available from the cafeteria. A list of common allergens in each menu item is available on the district website: <http://www.mesquiteisd.org/departments/food/menus.htm>

Thank you for your consideration when dealing with food modifications for your child. If you have any questions please do not hesitate to contact the Mesquite ISD Food & Nutrition Services Department.
